Your Color Consultation

Every recommendation is selected specifically for your home. Benjamin Moore and Sherwin-Williams are the paint brands I work with.

1

Share your space

After booking and payment, return your questionnaire with four to six clear photos of the room and its existing finishes. Confirm the delivery address for your samples.

2

I review the whole picture

I consider your lighting, flooring, cabinets, furniture, and the way connected spaces work together.

3

Receive your recommendations

Recommendations are emailed within three to five business days after I receive your payment, questionnaire, and photos. You receive the palette or color options included in your selected package, written explanations, and paint sheen recommendations.

4

Test in your own light

Included large samples ship separately to your home. Test them under my guidance in daylight and your usual evening lighting before choosing your final paint.

5

Bring your plan to life

You can paint yourself or hire a painter. You purchase paint and arrange any installation or construction work. After photos are always welcome and shared only with your permission.

One revision is included

Request it within seven calendar days of sample delivery, provided your space, existing materials, and overall direction stay the same. A new room or change in direction may need extra work; I'll confirm any fee first.

Frequently Asked Questions

Why hire a color consultant?

Color is shaped by lighting, undertones and surrounding finishes. Expert analysis helps reduce decision fatigue, unnecessary samples and the cost of repainting a room that does not feel right.

Can the right color really change a room?

Yes. A well-chosen color can connect existing finishes, soften elements that feel dated and give a room a more intentional, refreshed appearance without a full renovation.

Which paint brands does Room for Hue work with?

Room for Hue consults exclusively with Benjamin Moore and Sherwin-Williams colors. Focusing on these trusted brands allows for deeper familiarity with their color systems and confident recommendations.

Can a recommended palette be matched in another brand?

It can, but doing so is not recommended. Every manufacturer's base formulas differ, so a color match may not reproduce the original color accurately.

Do you represent Benjamin Moore or Sherwin-Williams?

No. Room for Hue is independent and specializes in color theory, undertones, design and sheen recommendations. Your paint supplier can advise on specific product lines and pricing.

Can Room for Hue work with existing furnishings and finishes?

Yes. Existing flooring, cabinetry, countertops, tile, furniture and other fixed elements are considered when developing recommendations. The goal is a more cohesive room without requiring everything to be replaced.

Can Room for Hue guarantee exactly how a color will look in a home?

No. Natural and artificial light, surrounding finishes, sheen and application can all affect color. Every recommendation must be sampled in the space before paint is purchased.

Do you purchase paint or hire the painting contractor?

No. Clients purchase paint and hire contractors independently. Room for Hue provides professional color and finish recommendations but does not purchase materials, supervise painters or manage installation.

What if a project changes after the consultation?

Changes to flooring, furnishings, fixed finishes or the overall design direction may require a new color analysis and an additional fee.

Helpful Details

How and when is payment made?

Payment is due upon receipt of your invoice and before services begin. Local clients may pay by check payable to Room for Hue, Venmo, or PayPal. Virtual clients may pay by Venmo or PayPal. I confirm your scope, price, and appointment before work begins.

Are paint samples included?

Large samples are included with Whole Home Color Palettes, Single Paint Selection, and Exterior Color. Single Paint Selection includes three samples; the \$90 exterior door add-on also includes three samples. Paint samples are purchased separately for Designer by Your Side.

How long is the in-home consultation?

Paint packages include up to 60 minutes. Designer by Your Side includes up to 60 minutes within the five-hour block. Pre Listing Color and Styling includes up to 90 minutes.

Can we work virtually?

Virtual color consultations are available throughout the United States for Single Paint Selection, Whole Home Color Palettes, and Exterior Color, at the same price as in-home packages. Photos, a questionnaire, and recommendations are exchanged digitally.

What if I cancel?

Before any consultation, design work, or sample order begins, your payment is fully refundable. After work starts, completed work and samples already ordered are deducted, and the unused balance is refunded. The value of package work for this calculation is explained in your booking confirmation before you pay.

What about unused design hours?

Completed Designer by Your Side time is charged at \$50 per hour from your prepaid block. If you end the project, unused paid hours are refundable, after accounting for any separate purchases already authorized and made for you. Email me to cancel or reschedule.

Is a color revision included?

One revision is included if requested within seven calendar days of sample delivery and your space, existing materials, and overall direction stay the same. Any fee for a new room or changed direction is confirmed before additional work begins.
